

| Model  | Description   | Gain (dBi) | Dimensions (mm) | Price (EUR)  |
|--|---|------------|-----------------|--------------|
| <b>Omnidirectional antenna with H+V dual polarization for 2x2 MIMO</b>   |   |            |                 |              |
| <b>DVM10-HV360an MIMO</b>  | The omnidirectional antenna (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO with dual polarization (H+V). RSMA or N (female) 2 panel connectors.   | 10         | 110 x 350       | <b>70,62</b> |
| <b>Sector antennas &amp; clusters with H+V dual polarization for 2x2 MIMO</b>  |   |            |                 |              |
| <b>DSM13-HV180/1an MIMO</b>  | The single sector antenna (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO, dual polarization (H+V), main lobe in horizontal plane 180° @ -6 dB. RSMA or N (female) 2 panel connectors.   | 13         | 110 x 350       | <b>60,52</b> |
| <b>DSM13-HV180/2an MIMO</b>  | The 2 independent sector antennas in 1 enclosure – <b>cluster</b> - (5.470-5,725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO, dual polarization (H+V), main lobe in horizontal plane 2x 180° @ -6 dB. RSMA or N (female) 4 panel connectors.  | 2x13       | 110 x 350       | <b>77,35</b> |
| <b>DSM16-HV90/1an MIMO</b>   | The single sector antenna (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO, dual polarization (H+V), main lobe in horizontal plane 90° @ -6 dB. RSMA or N (female) 2 panel connectors.  | 16         | 110 x 350       | <b>33,60</b> |
| <b>DSM16-HV90/2Aan MIMO</b>  | The 2 independent sector antennas in 1 enclosure – <b>cluster</b> - (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO, dual polarization (H+V), main lobe in horizontal plane 2x 90° @ -6 dB, the sectors are placed side-by-side. RSMA or N (female) 4 panel connectors.      | 2x16       | 110 x 350       | <b>57,16</b> |
| <b>DSM16-HV90/2Ban MIMO</b>  | The 2 independent sector antennas in 1 enclosure – <b>cluster</b> - (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO, dual polarization (H+V), main lobe in horizontal plane 2x 90° @ -6 dB, the sectors are placed at opposite sides. RSMA or N (female) 4 panel connectors. | 2x16       | 110 x 350       | <b>57,16</b> |
| <b>Accessories</b>   |   |            |                 |              |
| <b>AT</b>  | The antenna accessories – mounting bracket for DVM & DSM antennas   |            |                 | <b>6,99</b>  |
| <p>Typical values of VSWR are 1.2-1.3. Maximum value of VSWR is 1.5:1. Down tilt up to 5° at every 90° sector is possible to setup from bottom side of the antenna quite individually (<b>from this list every antenna or cluster has this possibility !!!</b>). The prices do not include the Tax. The prices are to be understood in EUR, EXW (Incoterms). The warranty of the products: 24 months. For our customers we offer a discount which depends on amounts of goods.</p> |   |            |                 |              |

| Model  | Description   | Gain (dBi) | Dimensions (mm) | Price (EUR)  |
|--|---|------------|-----------------|--------------|
| <b>Super high gain omnidirectional antenna with H+V dual polarization for 2x2 MIMO</b>   |   |            |                 |              |
| <b>DVM14-HV360an MIMO PRO</b>  | The omnidirectional antenna (5.470-5.725 Ghz or other 5GHz band - 802.11an) – 2x2 MIMO with dual polarization (H+V) and <b>super high gain</b> . RSMA or N (female) 2 panel connectors.   | 14         | 110 x 510       | <b>91,24</b> |
| <b>Super high gain sector antennas &amp; clusters with H+V dual polarization for 2x2 MIMO</b>  |   |            |                 |              |
| <b>DSM17-HV180/1an MIMO PRO</b>  | The single sector antenna (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO with dual polarization (H+V) and <b>super high gain</b> , main lobe in horizontal plane 180° @ -6 dB. RSMA or N (female) 2 panel connectors.   | 17         | 110 x 510       | <b>78,16</b> |
| <b>DSM17-HV180/2an MIMO PRO</b>  | The 2 independent sector antennas in 1 enclosure – <b>cluster</b> - (5.470-5.725 GHz or other 5GHz bands - 802.11an) – 2x2 MIMO with dual polarization (H+V) and <b>super high gain</b> , main lobe in horizontal plane 2x 180° @ -6 dB. RSMA or N (female) 4 panel connectors.                                       | 2 x 17     | 110 x 510       | <b>99,91</b> |
| <b>DSM20-HV90/1an MIMO PRO</b>   | The single sector antenna (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO with dual polarization (H+V) and <b>super high gain</b> , main lobe in horizontal plane 90° @ -6 dB. RSMA or N (female) 2 panel connectors.  | 20         | 110 x 510       | <b>43,40</b> |
| <b>DSM20-HV90/2Aan MIMO PRO</b>  | The 2 independent sector antennas in 1 enclosure <b>-cluster-</b> (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO with dual polarization (H+V) and <b>super high gain</b> , main lobe in horizontal plane 2x 90° @ -6 dB, the sectors are placed side-by-side. RSMA or N (female) 4 panel connectors.      | 2 x 20     | 110 x 510       | <b>73,85</b> |
| <b>DSM20-HV90/2Ban MIMO PRO</b>  | The 2 independent sector antennas in 1 enclosure <b>-cluster-</b> (5.470-5.725 GHz or other 5GHz band - 802.11an) – 2x2 MIMO with dual polarization (H+V) and <b>super high gain</b> , main lobe in horizontal plane 2x 90° @ -6 dB, the sectors are placed at opposite sides. RSMA or N (female) 4 panel connectors. | 2 x 20     | 110 x 510       | <b>73,85</b> |
| <b>Accessories</b>   |   |            |                 |              |
| <b>AT</b>  | The antenna accessories – mounting bracket for DVM & DSM antennas   |            |                 | <b>6,99</b>  |
| <p>Typical values of VSWR are 1.2-1.3. Maximum value of VSWR is 1.5:1. Down tilt up to 3° at every 90° sector is possible to setup from bottom side of the antenna quite individually (<b>from this list every antenna or cluster has this possibility !!!</b>). The prices do not include the Tax. The prices are to be understood in EUR, EXW (Incoterms). The warranty of the products: 24 months.
